ABSTRACT OF THE DISCLOSURE

~~The invention relates to the screen printing of viscous medium onto a substrate and the subsequent application of additional viscous medium through jetting.~~ A method of applying viscous medium on a substrate that is arranged for mounting of components thereon. The method includes screen printing predetermined amounts of a viscous medium on predetermined positions on the substrate. In addition, the method includes add-on jetting of predetermined additional amounts of viscous medium on predetermined positions on the screen printed substrate prior to hardening of the screen printed viscous medium.
